September 15, 1994

Dear Mr. Cox;

I would like to amend my notice of mining operations which was filed last year. In order to save money and disturb less ground, we would like to bulk sample ore which has already been disturbed in the N.E.  $\frac{1}{4}$  of sec. 26 T 23s, R. 9w. This Perlite claim belongs to a Mrs. Oertle and is on a block of 6 claims listed as follows. I'm not sure which one.

Snowflake Queen	UMC 188567
Black Rock 2	" 214916
Mahogany 5	" 213074
Snowflake 30	" 238650
Snowflake 31	" 238651
Snowflake 32	" 238652

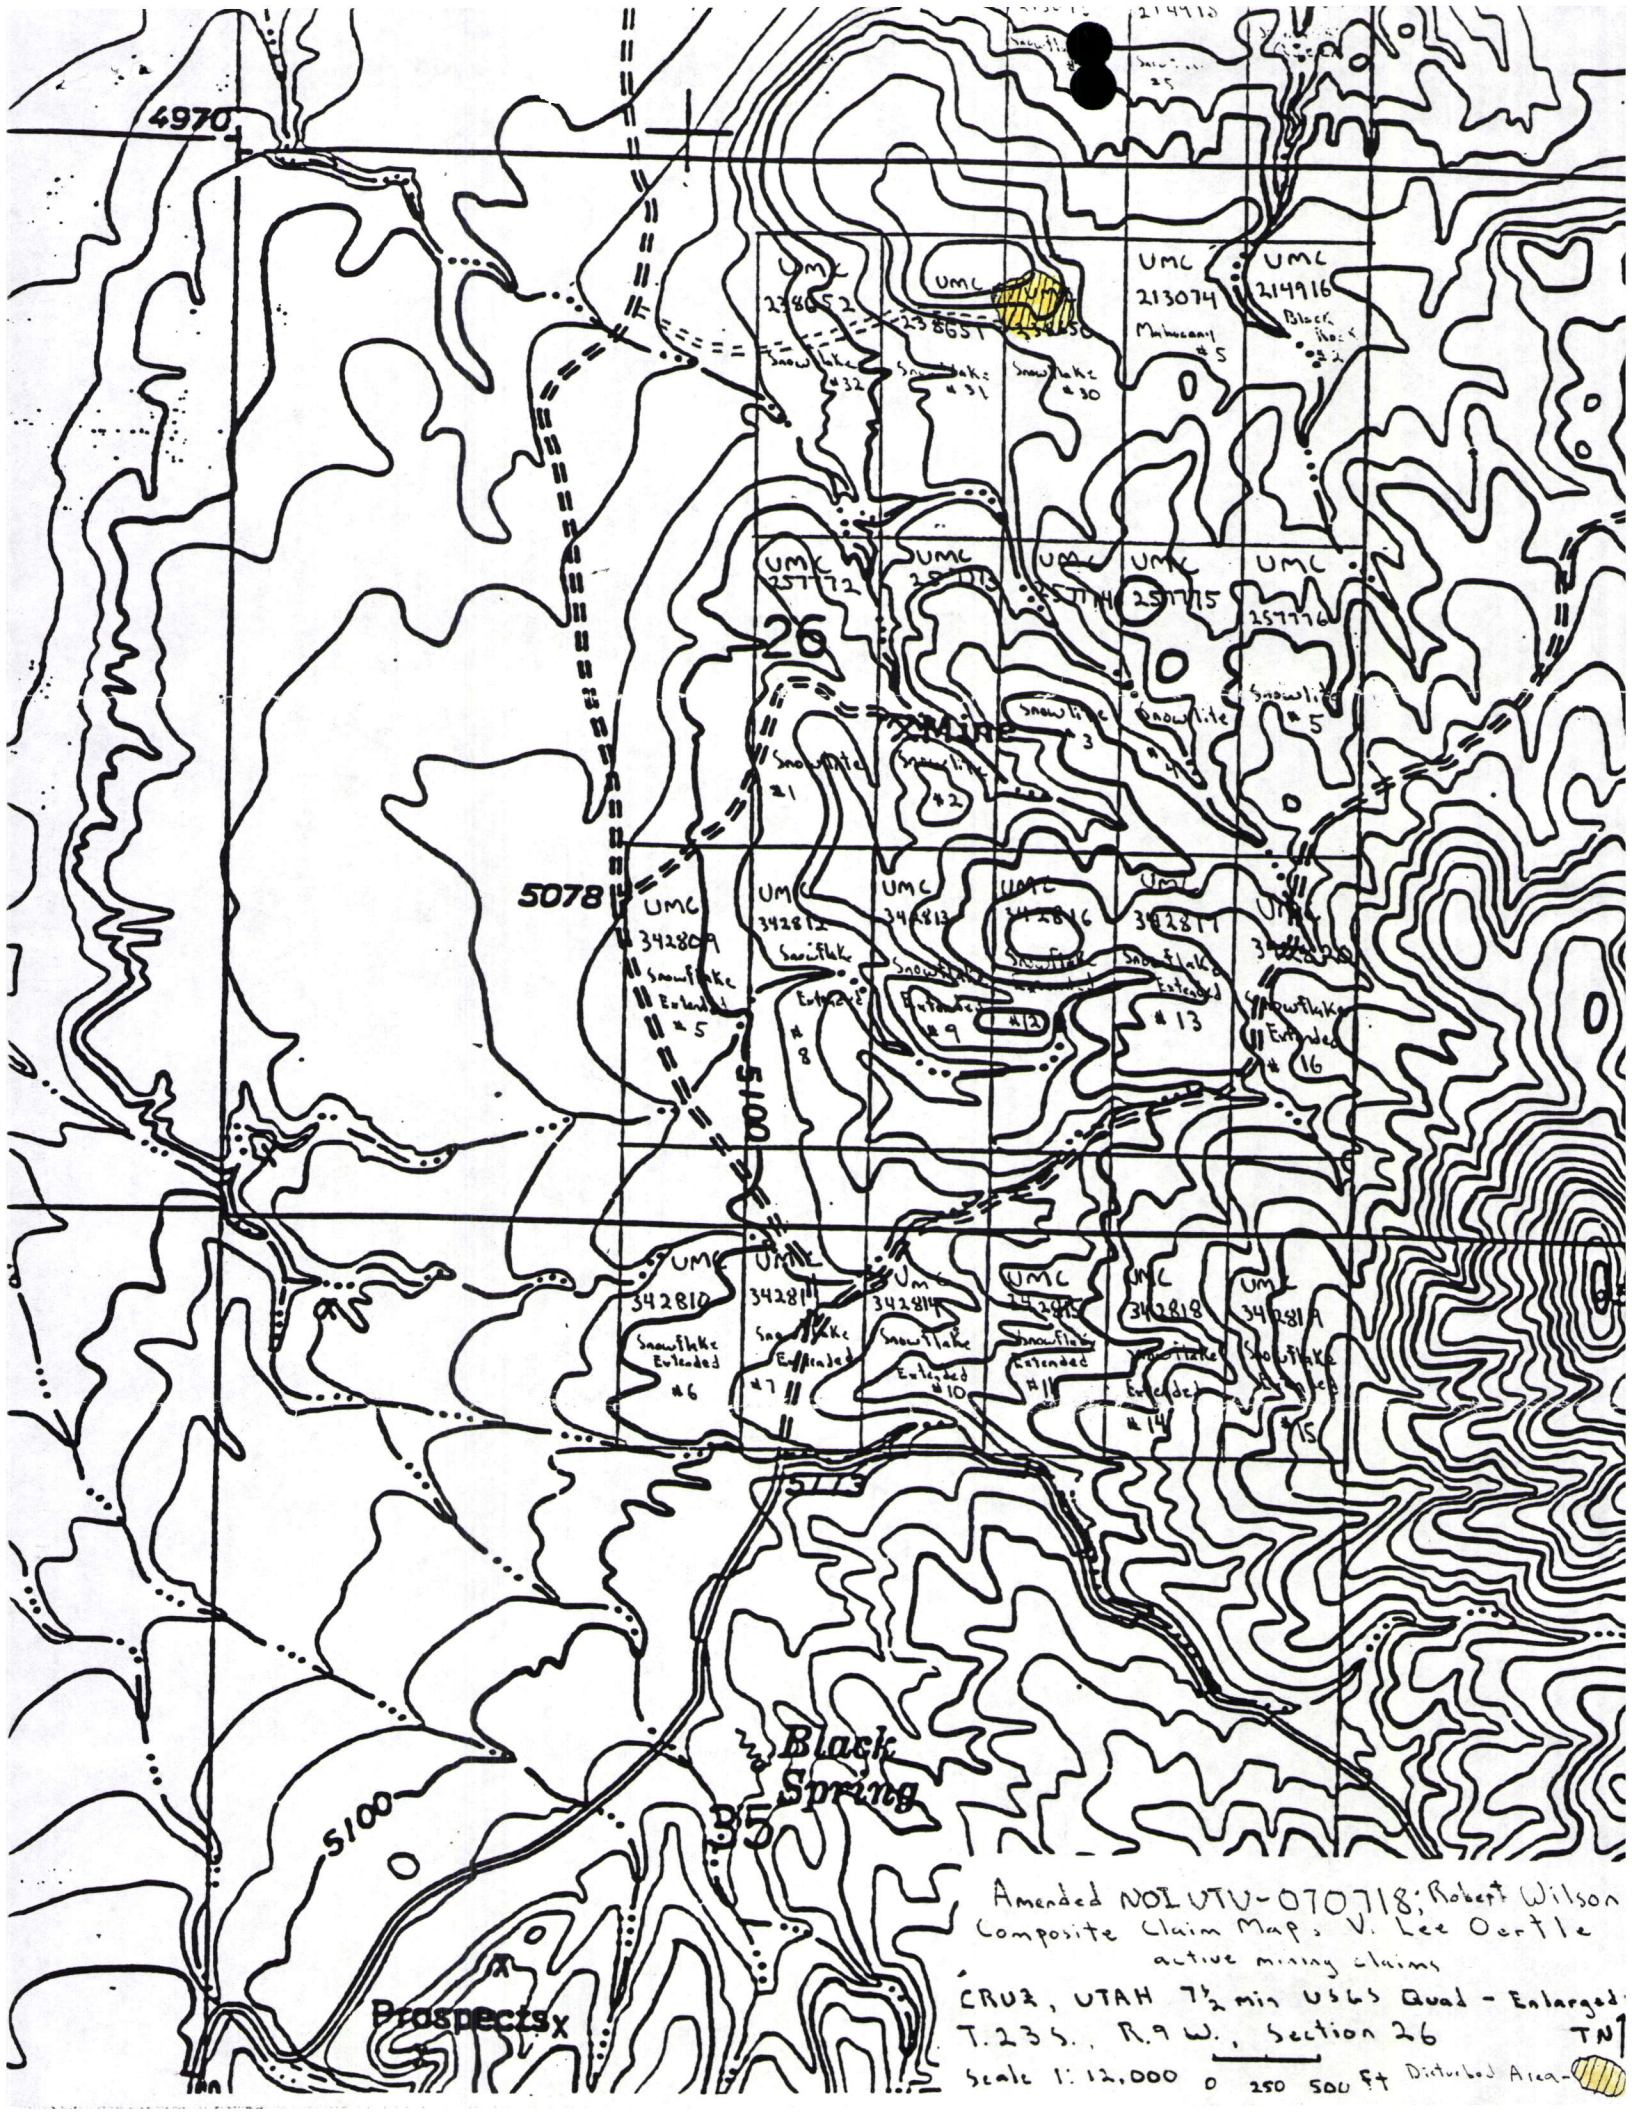

Purchasing this ore will enable us to get a few truck loads of perlite to Dutsons mill for a trial crush. I hope this will be acceptable with your department.

Thank You,

  
R. B. Wilson
